

ProCut

Size 1kg & 250g
Code: PCG20-1
PCG20-250

ProCut is a single-stage, high-performance cutting compound that has been specifically developed for the refinisher and detailer, removing severe paint defects in seconds and resulting in a high gloss finish.

- Polishes P1200-1500
- Extremely fast cut
- Single-stage compound and polish
- Zero VOC content
- Long working time with very low dust
- Zero fillers

Physical Properties

Physical state:	Paste	Ignition temperature in °C:	>200
Colour:	White/transparent when used	VOC content:	Zero (0.0g/l)
Odour:	Odourless	Shelf life:	2 years
Flashpoint:	130°C	Storage temp:	15°C - 25°C

ProFinish

Size 1kg & 250g
Code: PFG20-1
PFG20-250

ProFinish guarantees a perfect gloss finish on all colours, including difficult dark colours. This unique polish formulation is based on a microfine, high purity aluminium oxide powder that quickly and easily eliminates any swirl marks, holograms or light scratches from the final coating.

- Excellent for dark colours
- Extremely high gloss
- Hologram free finish
- Zero fillers

Physical Properties

Physical state:	Liquid	Ignition temperature in °C:	>200
Colour:	White/transparent when used	VOC content:	135 g/l
Odour:	Characteristic	Shelf life:	2 years
Flashpoint:	61°C	Storage temp:	15°C - 25°C

Hard Compound Pad

Pack of 2
Code: HPG20-150/2

The Hard Compound Pad has been specially developed in conjunction with ProCut Extreme Cut Compound.

- 3D crosscut technology
- Enhanced cutting performance
- Intelligent heat regulation

Open-cell foam
Size: 140mm

Medium Polish Pad

Pack of 2
Code: MPG20-150/2

The Medium Polish Pad has been specially developed in conjunction with both ProCut Extreme Cut Compound and the Generation20 ProFinish Polish.

- Suitable for both compound and polishing
- Recommended pad for the ProFinish Polish
- Central hole to reduce heat

Open-cell foam
Size: 140mm

Application	EXTREME CUT Single-stage compound and polish to easily remove P1200-P1500 flatting marks resulting in a high-gloss finish	MEDIUM CUT Single-stage compound to quickly remove scratches and marks from new and old paintwork resulting in a high-gloss finish	FINAL POLISH Final finish polish to be used in conjunction with the previous two applications for a superior high-gloss and hologram free finish, especially for dark colours
Compound or Polish	ProCut 	ProCut 	ProFinish 
Recommended Pad	Hard Compound Pad 	Medium Polish Pad 	Medium Polish Pad 
Process	Use a small amount of ProCut spread evenly on the Hard Compound Pad. 1st pass with polisher at 1000 rpm then increase speed to 1500-2000 rpm. Wipe off with microfibre cloth	Use a small amount of ProCut spread evenly on the Medium Polish Pad. 1st pass with polisher at 1000 rpm then increase speed to 1500 rpm. Wipe off with microfibre cloth	Use a small amount of ProFinish spread evenly on the Medium Polish Pad. 1st pass with polisher at 1000 rpm then increase speed to 1500 rpm. Wipe off with microfibre cloth
Main Benefits	<ul style="list-style-type: none"> • No need to use finer than P1500 discs • Super-fast process • Only needs one product 	<ul style="list-style-type: none"> • Super-fast process • Only needs one product 	<ul style="list-style-type: none"> • Superior high-gloss finish • Eliminates come-back with holograms on dark colours
