

ProPRIME

Ultra High Build Primer

PROPRIME is a high build flexible primer filler ideally suited for most plastic and metal substrates. Fast drying coating resulting in an easily sanded surface.

- Easily sanded, super build flexible primer
- Excellent adhesion onto most plastics and metals
- Highly flexible
- Fast drying
- Supplied with 2 nozzles

Suitable substrates

Correctly prepared bare metal & some plastics.
For ultimate adhesion to plastics, ProXL Plastigrip should be applied first.

Application data

2-3 coats @ 60µm

Dust free 8-12 minutes @ 20°C
Touch dry 20-30 minutes @ 20°C
Re-Coat 2 hours @ 20°C

The drying time depends on temperature, air humidity and thickness of the applied coat.

5-10 Minutes

PLASTICOLOR or a coloured topcoat

Application method

Before use, shake the aerosol for 2 minutes and spray a sample area.

Apply in cross coats from a distance of 250mm from object.

After use turn aerosol upside down, press the nozzle for approx. 5 sec and clear valve.
