

ULTIMATE FINISHES FOR THE HARSHTEST ENVIRONMENTS

✓ *Multiple substrates*

✓ *Fast application*

✓ *Problem solving*

An adhesion promoter that provides the perfect preparation for difficult substrates that require painting

- Advanced clear adhesion promoter
- Excellent adhesion to many problem substrates
- Tested on most plastics, glass, porcelain and stainless steel
- To be overcoated after 10 minutes and before 1 hour
- Provides a 'nano' layer, with zero build

Suitable substrates:

- ✓ GLASS
- ✓ CERAMICS
- ✓ ALUMINIUM
- ✓ UPVC
- ✓ STAINLESS STEEL

Code: INDUGP500

A heavy duty primer to protect metal substrates from corrosion by guarding against moisture penetration

- Provides 400 hours salt spray resistance
- Excellent moisture ingress protection
- Super smooth finish - can be applied wet on wet
- Overcoat after 30 minutes
- Available in grey or red oxide finish

Suitable substrates:

- GALVANISE
- MILD STEEL
- ALUMINIUM

Code: INDGP500 (GREY)
Code: INDRO500 (RED OXIDE)

A zinc primer that combines rapid drying time with outstanding cathodic protection when fast on-site repairs are required

- Perfect for on-site spot repairs
- 85% pure zinc content in dry film
- Overcoat after 5 minutes
- Temperature resistant to 350°C
- 700 hours salt spray resistance

Suitable substrates:

- ✓ RAILS
- ✓ BARRIERS
- ✓ STEPS
- ✓ CAGES

Code: INDZRF500

Perfect coating for the repair of old galvanised steel providing a great finish and protection in one aerosol

- Ultimate cathodic protection of bare or galvanised steel
- Matches old zinc galvanising
- 90% pure zinc content in dry film
- Provides 1000 hours salt spray resistance
- Overcoat after 30 minutes
- Temperature resistant to 350°C

Suitable substrates:

- ✓ RAILS
- ✓ BARRIERS
- ✓ STEPS
- ✓ CAGES

Code: INDZR500

A repair spray that is designed to maintain the protective qualities of new galvanise when it has been cut or welded

- Matches new zinc galvanising
- High quality and fast drying
- Resistant to petrol, chemicals and weather influences
- Provides 500 hours salt spray resistance
- Weld-through
- Temperature resistant to 350°C

Suitable substrates:

- ✓ DUCTING
- ✓ M&E CHANNEL SUPPORT
- ✓ GIRDERS
- ✓ ROOFING SYSTEMS

Code: INDAZ500

High gloss topcoat that gives outstanding protection as well as the needed appearance

- High quality acrylic finish
- Very resistant to weathering and UV influences
- Overcoat after 10 minutes
- Outstanding opacity - less coats and time required
- Excellent adhesion to many substrates
- Available in over 40 RAL colours
- Pipeline and safety colours
- Agricultural colours

Suitable substrates:

- ✓ PLANT
- ✓ CONSTRUCTION
- ✓ FABRICATION
- ✓ CLADDING
- ✓ AGRICULTURE

Code: IND- (FOLLOWED BY RAL CODE)

Ultimate protection at temperatures up to 800°C

- For treated and untreated surfaces exposed to very high temperatures
- Suitable for use on flues and pipework
- Can be sprayed onto bare metal without priming first
- Excellent adhesion to steel, mild steel and aluminium
- Good coverage and filling properties
- Heat resistant to 800°C

Suitable substrates:

- ✓ **STOVES & FLUES**
- ✓ **EXHAUSTS**
- ✓ **PIPEWORK**
- ✓ **FURNACES**

Code: INDHT400S (SILVER)

Code: INDHT400B (BLACK)

Code: INDHT400C (CLEAR)
