Steel

Galvanised

Aluminium

Plastic

GRP

Concrete

Wood

- ✓ Impact resistant
- ✓ Highly flexible
- ✓ UV resistant

1 Litre

Very simple to use, and typically applied with an underbody schutz gun. Can also be applied with HVLP gun or a roller. Once cured, ToughOX leaves a structured or raised finish. By using different application methods, this can either be fine or coarse.

 Tintable       Black

The durability of ToughOX with the convenience of a 400ml, 2K aerosol.

An easy and fast way to apply ToughOX, making it perfect for small jobs and spot repairs.

Supplied with 2 nozzles to achieve a range of surface finishes, from fine to coarse.

 Tintable       Black       White
